## Work History

### Vinya Bilişim - ERP Developer

Bahçelievler, İstanbul - Türkiye

September 2024 - July 2025 / Full Time

10 Months

- In some projects where I worked as a Microsoft Dynamics 365 NAV & Business Central Developer, I made customizations in the NAV or Business Central program according to the requirements of the companies we collaborated with. I wrote complex SQL queries based on the requests of the companies I supported. I performed optimization tasks. I monitored IIS web services. In necessary cases, I developed solutions using .Net Core.

### Trampoline Fashion - Jr. Full Stack Developer

İstanbul - Türkiye

December 2023 - September 2024 / Remote

10 Months

- I served as the founder and developer of a PHP-based web platform that reached over 30,000 users in Turkey.
- I designed and integrated new sections and modules based on the needs of the continuously growing user base.
- I am responsible for the technical management of the website, improving user experience, and implementing content strategies.
